

**GORKHALAND TEROTORIAL ADMINITRATION
PUBLIC HEALTH ENGINEERING DEPARTMENT
LOWIS JUBILEE COMPLEX
DARJEELING.**

WRITE-UP

PHE Department is one of the transferred Departments to GTA, Darjeeling. The GTA exercise all Executive Power of the State Government relating to Public Health Engineering in the Hill areas under its jurisdiction. The PHE divided into 3 divisions i.e. Darjeeling, Kurseong & Kalimpong with Executive Engineer in charge in each of the division.

Executive Member, GTA, Darjeeling is elected head of the department and Executive Director is the Administrative head of the department.

For all Engineering matters one Superintendent Engineer is the Engineering head of the Public Health Engineering Department, GTA, with the Executive Engineer, Assistant Engineer and other technical & non technical staff to support him in the three PHE Division of Darjeeling, Kalimpong and Kurseong is responsible for execution of new schemes as well as maintenance of existing schemes for providing drinking water supply both rural and Urban areas under jurisdiction of GTA.

Due to the hilly topography, creation of spot sources like tube wells and dug well are not feasible in the rural habitation under the hill areas. Piped Water Supply Scheme are the only mode of providing safe drinking water of these hill areas involving per capita cost higher than that in the plains.

Unique feature for the PHE, GTA is that it does not only cater to the rural population but also responsible for augmentation, storage and distribution for Darjeeling, Kalimpong, Kurseong and Mirik.

Sd/-
Executive Director,
PHE Department
GTA, Darjeeling.
